CEDAR DIRECT**

A DIVISION OF SAN GROUP FORESTRY PRODUCTS INC.  
2019/2020

## Our Story

San Cedar Direct is a distribution and retail division of San Group Inc., a global provider of Canadian-made lumber products.

“From harvest to home” is the San Group mission, and we take pride in providing our customers with the best quality products possible. By sustainably harvesting our own logs along the coast and on the beautiful Vancouver Island, and then sawmilling and remanufacturing them, we provide our customers with the highest-grade lumber products at the lowest prices. We control all aspects of the supply chain and production, from harvesting to delivering to our retail centres, thereby ensuring that all our customers are provided with everything they need for their next building project.
